Model SDB

Downdraft Bench

The heavy-duty SDB Downdraft Bench offers a large work surface, high-capacity dust drawers and a downdraft velocity up to 200 fpm. It is typically used for grinding, polishing, hand sanding and dry buffing.

The SDB bench features an automatic pulse cleaning system with four Advanced Nanofiber Filtration Technology cartridge filters, including an option for flame retardant media. It can support 75 lbs. per square foot on its 80" wide x 55" deep work surface, and comes standard with a 3 HP motor, 230-460/3/60.

Options include special filter media, Photohelic® gage, non-sparking fan wheel and 208/3/60 input voltage.

Standard Features

- Heavy-duty work surface supports 75 lbs./ft²
- Four UAS nanofiber cartridge filters
- Downdraft velocity of 200 fpm
- Magnehelic® gage mounted on unit
- Large capacity dust drawers
- Automatic self-cleaning reverse pulse jet system
- Heavy-duty airfoil fan wheel
- Sound attenuated blower housing
- Quick-release filter access doors
- Powder-coated, scratch-resistant paint
